The Eliminate Project

ELIMINATE

Kiwanis and UNICEF joined forces to tackle iodine deficiency disorders, achieving one of the most significant public health successes of the 20th century. Now, they are eliminating MNT from the face of the Earth. In doing so, the project will reach the poorest, most neglected mothers and babies with additional lifesaving health care. The end of this one disease means the beginning of better health for so many families. In 40 countries around the world, maternal and neonatal tetanus (MNT) can quickly turn the joy of childbirth into tragedy. MNT kills one baby every nine minutes. Its effects are excruciating — tiny newborns suffer repeated, painful convulsions and extreme sensitivity to light and touch. There is little hope of survival. MNT is caused when tetanus spores, found in soil everywhere, come into contact with open cuts during childbirth. The disease strikes the poorest of the poor, the geographically hard to reach and those without health care. MNT is highly preventable. Just three doses of a 60-cent immunization protect mothers, who then pass on the immunity to their future babies. Together, Kiwanis and UNICEF can stop this disease. UNICEF *has* helped to successfully eliminate MNT in many countries, but in 40 countries in Africa, Asia, Europe and North America, it still strikes babies and mothers who have little or no access to health care; either because they are poor, live in remote areas or are caught in humanitarian emergencies. More funds and resources are needed to reach all babies and mothers at risk. With The Eliminate Project, Kiwanis International and UNICEF have joined forces to eliminate maternal and neonatal tetanus. This deadly disease steals the lives of 60,000 innocent babies and 30,000 mothers each year. The effects of the disease are excruciating, tiny newborns suffer repeated, painful convulsions and extreme sensitivity to light and touch. To eliminate MNT from the Earth by 2015, 129 million mothers and their future babies must be immunized. This requires vaccines, syringes, safe storage, transportation, thousands of skilled staff and more. It will take \$110 million and the dedicated work of UNICEF and every member of the Kiwanis family.

The Six Permanent Objects of Kiwanis

To give primacy to the human and spiritual rather than to the material values of life.

To encourage the daily living of the Golden Rule in all human relationships.

To promote the adoption and the application of higher social, business, and professional standards.

To develop, by precept and example, a more intelligent, aggressive, and serviceable citizenship.

To provide, through Kiwanis clubs, a practical means to form enduring friendships, to render altruistic service,
and to build better communities.

To cooperate in creating and maintaining that sound public opinion and high idealism which make possible the increase of righteousness, justice, patriotism, and goodwill.
